Lake Forest Friday, Zion Here Saturday On Sequoit Schedule

Antioch Beats Wauconda, Mooseheart Last Week, Frosh Win

Home games with Lake Forest tomorrow evening and Zion Saturday evening are expected to give the Antioch Sequoits a hard workout this weekend. Large crowds are expected at both the conference and the nonconference games.

Lake Forest this Friday as well as Warren next Friday are "must" games for the victory column of the Sequoits if they want to stay in the battle for the championship.

Grant won from Lake Forest last week in overtime play and managed to maintain their undefeated record. Antioch has won 4 and lost 1 with a 9-5 overall record. Lake Forest has won two and lost three, but must be reckoned with for Antioch has never tested their strength.

Zion is a hot and cold team, having won 1 and lost four in conference play and having a 5-6 overall record for the season.

The Sequoits overpowered Wauconda last week 55 to 34 despite the fact that Dennis Freund, Wauconda ace was going strong. Freund was outscored by both Jerry Dittmer, who had a big night with 20 points, (continued on page 7)

Fire Partly Destroys Knackstadt Apts., Three Flee to Safety

One Apt. Gutted, Other Water Damaged; Loss Is \$9,500

The two-apartment building, homes of Mr. and Mrs. Henry Knackstadt and their son, Kenneth, his wife and four children, Channel Lake, was partly destroyed Saturday.

Fire Chief Edgar Simonsen placed the value of the building at \$12,000 and the loss to it at \$8,500. The loss and damage to the contents were placed at \$3,000. Cause of the fire has not been determined.

The fire started in the front 6-room apartment of the Kenneth Knackstadt family Saturday afternoon while members of both families with the exception of the elder Mrs. Knackstadt and two of the younger grandchildren were away.

The three fled to the Ted Smith, Jr., residence next door where the alarm was turned in to the Antioch Fire department.

The flames were confined to the front apartment, which was gutted, but the damage to the rear apartment of the elder Knackstadts was mainly from water.

The building is one that was formerly a summer club house that has been remodeled into year-round apartments. The Knackstadts stayed with neighbors until they were able to find a place to live.

Other calls of the department were to the Charles A. Jorgensen, Jr., residence on Rte. 173 where a transformer in a television set caught fire. The damage was confined to the set.

On Jan. 8 the firemen went to the F. A. Kroll residence at 15 Prospect Ave., Channel Lake Bluffs where the electrical part of an oil burner caught fire. The damage amounted to \$500.

St. Ignatius Has Glowing Report For Past Year

Members of the parish church of St. Ignatius of Antioch heard one of the most optimistic and encouraging reports they had ever heard during the entire forty-two years of the church's existence, when the parish held its annual every member meeting Sunday afternoon.

In all fields of the parish's activities growth and expansion were noted. Last year the Women's Auxiliary installed a completely new and modern kitchen in the basement of the parish hall, and remodeled the existing hall to conform to safety regulations and appearance.

The vestry reported continued financial growth and security, together with constant repairs and improvements on the physical plant.

The church school has grown, added new and adequate courses of study for all grades, and has obtained the services of twelve excellent teachers.

The mission treasurer reported that giving to missions in the parish has doubled within the past four years, and the parish is looking forward to the time when it will be enabled to give its full share of the missionary quota assigned by the diocese.

The report on attendance, however, presented one of the most encouraging pictures. Since 1954 the parish has recorded, in total attendance for one year, an increase of over one thousand for each year. These figures, said the Rev. Edmond Hood, pastor of the parish, do not include attendance at baptisms, weddings, or funerals. Since many who attend these services are not members of the parish, to include these figures in the general count would tend to give an inadequate picture of the growth in discipline of the congregation.

Acting upon the recommendations of the nominating committee, the parish elected William Brook Senior Warden, and Raymond Horan Junior Warden. Elected for a one year term on the vestry were: Charles Jorgensen, George Sterbenz, Loren Sexauer, Jack Stieber, and Laurel Van Patten; for two years, Jerry Rockow, Robert Flood, Charles Larson, and Elmer Brook; for three years, Fred Hawkins, John W. Horan, Leonard Roblin, and Chester Golonka.

The meeting closed with the reading of a resolution, previously adopted by the vestry, petitioning the congregation for permission to borrow the amount of \$12,000 to remodel the existing rectory. The parish gave full consent and approval.

The dedication service of Lakeland Baptist Church at Grand avenue west of Lake Villa, will be held Sunday.

The program will begin with church school for all ages at 10 a. m. The Rev. T. V. L. Harvey, director of church extension of the Chicago Baptist association will speak during the morning worship hour at 11 a. m.

The Women's Missionary Society will serve dinner for the guests and members at 12:45 p. m. The dedication service will begin at 3 p. m.

Dr. Lincoln B. Wadsworth of New York City will bring the Dedictory address.

Lincoln B. Wadsworth, the dedication speaker is secretary of the Department of Edifice Funds and Building Counsel and the newly created Department of Church Extension of the American Baptist Home Mission society of the American Baptist Convention.

From 1945 to 1953, he served as secretary to the Department of Cities for the Home Mission Society. He had responsibility for administration of the work in Christian Centers, Juvenile Protection, Baptist Educational Centers, Bilingual and Spanish-speaking churches; work in Alaska, Church Extension and other mission enterprises in cities throughout the American Baptist Convention.

The expansion of the work of the Society in church extension, for the most part, has taken place in the Department of Cities. In that field Mr. Wadsworth had extensive responsibilities for the planning of new church buildings and also for the enlargement of existing edifices, such as the building in Kodiak, Alaska.

He administers the Society's loan funds, which aid existing churches (continued on page 7)

Economic Highlights

For many years one of the best known American communist artists was the novelist Howard Fast. Though he did not join the party until 1943, he had long been a dedicated and passionate Marxist, and he had come to the belief that communism was "an edifice dedicated singularly and irrevocably to the ending of all war, injustice, hunger, and human suffering—and to the goal of the brotherhood of man." His novels—which sold in tremendous quantities throughout the world—faithfully reflected this view in one way or another.

Then came the fateful day—June 5, 1956 when the New York Times published the long full text of the "secret" Khrushchev speech which told in lurid detail of the terrors and brutalities perpetuated under Stalin. This, for Mr. Fast and a number of other American Communist Party members, meant the parting of the ways. Now he tells his story in a book, "The Naked God," just published by Frederick A. Praeger, Inc. A section of it has been printed in the November 16 issue of The Saturday Review, under the title "On Leaving the Communist Party."

It is a somber, compelling and sometimes horrifying tale. Poverty, hunger and despair brought this highly gifted writer to the left-wing movement. He accepted, apparently in full willingness, the harsh disciplines of communism. These disciplines are backed by the threat of expulsion from the party—and to a sincere and devoted communist, Mr. Fast explains, "expulsion was almost as bad as death—and sometimes worse."

He writes of party leaders under the Stalinist structure. A leader, Mr. Fast says, is a man (and his name is legion) who ditches the page of history and blackens all the colors of man's dreams. He parrots the going party line ad nauseum. He eschews original opinions as the devil himself. He is contemptuous and threatening to those below him in the hierarchy, and a boot-licker of those above. Mr. Fast writes: "Not even the warden of the Federal prison where I served a sentence as a political prisoner years later ever treated me or anyone else with such inhuman disdain and contempt; indeed the warden I refer to was a man of heart and compassion; and only in the Communist Party from Communist leadership have I experienced myself and seen directed toward so many others such an attitude toward people."

Even a mild criticism of communist policy, on the part of a writer could and would bring down denunciation of a sort that "a civilized person would reserve for pathological criminals." Any kind of lying and deception was used if it would serve party ends. Mr. Fast cites a famous Soviet writer who, during a visit to New York, was asked what had happened to a number of other Soviet writers of whom nothing had been heard for a long time. He assured his audience that all were alive, well and working, and actually described in detail the works each was supposed to be engaged upon. This was a pure and deliberate fabrication. All the writers had been executed or were in prison.

Mr. Fast's defection from the party is all the more significant because, for so long, he made great personal sacrifices, financial and otherwise, to keep the communist faith. Even when he could no longer find a commercial publisher, he kept on writing and published his own books—an enterprise which is almost invariably a failure for an author. Yet, he says, he was luckier than his counterpart in the Soviet Union itself. For he was allowed to live and write even while he fought the policies of his own government. The Soviet writer who did that, by contrast, "was cruelly tortured and... put to death."

And now, Howard Fast tells us, he has found freedom. There is, to him, many an imperfection in the United States—but "it is a land where the individual, in his work and in his rights, is recognized and defended." Then he says: "Whatever the Communist Party once was, today it is a prison for man's best and boldest of dreams. Tomorrow belongs to those who break down the prison walls that enclose the minds of men, not to those who support such walls."

Grass Roots Opinion

DENVER, COLO., MINING RECORD: "Governments which financially dominate the Free World apparently have agreed to perpetuate an insufficiency of gold and silver to use as money or to back their paper currency by merely keeping the prices of gold and silver so low that citizens will find it financially unprofitable to mine gold and silver, as such. In this manner they believe they can continue to force their citizens to accept the product of their speedy-printing presses as 'money'."

BARTOW, FLA., POLK COUNTY DEMOCRAT: "25,000 surgical operations are being performed in the United States every day in the year... and most of the surgery done today would have been declared impossible by even the best physicians 50 years ago... Few professions have made greater changes or achieved more beneficial progress than has the art of medicine."

READING, MASS., CHRONICLE: "... legislation had to pass the house and the senate and be signed by the governor to enable women and children employed in Massachusetts industry to accept a ½ hour lunch period instead of being required to take ¾ of an hour. The change was sought because where the men had a ½ hour lunch period and the women a ¾ hour lunch period, the women lost opportunities to share rides with other workers in car pools. This law regulating the length of women's lunch hours is an example of the kind of paternalistic laws that clutter up the books."

RAYMONDVILLE, TEXAS, NEWS: "America's draftees—who were sent to Korea or are presently serving all over the globe—represent a typical cross-section of American youth. Their collective understanding of their country and the world is that of their generation. And, up to now, nothing much has been done to inform young America on the overriding problem of our day and their future—the titanic struggle to the death between Communism and Freedom."

Women Work for Traffic Safety

Traffic accidents always make more news than the efforts made to prevent them. But the efforts are being made, and in terms of the lives they will save in the future, they are more important than the most widely reported accident.

It is heartening to find an unusually constructive approach to the problem coming from industry—in this case from an oil company whose interest in the motorist reaches far beyond the sale of gasoline.

It's called the Carol Lane Awards for Traffic Safety. It is the only national recognition offered to women for their achievements toward the preservation of lives through traffic safety programs at the community or state level.

The awards, named for the women's travel director of Shell Oil Company, are made each year to three individual women and to three women's or parents' groups that have developed and directed effective traffic safety programs. They consist of \$1,000, \$500 and \$250 in savings bonds for first, second and third, respectively, plus sculptures or bas-relief symbolizing woman's protective instinct.

These awards have gone to women for promoting better vehicle inspection, programs leading to improvement of motor vehicle laws, pedestrian and bicycle safety, and driver training—especially among teenagers.

This approach appeals to women's natural desire to protect life, and it encourages women to use their opportunities—usually greater than men's—to work with young people in promoting traffic safety.

The awards are an example of a corporation accepting responsibility and encouraging participation in a worthwhile cause.

Dr. Midgley Warns Of Needless Deaths From Cancer Neglect

The cure of cancer lies in chemotherapy, Dr. Calvin P. Midgley told the Antioch Woman's Club at its meeting January 6 at the Scout House. He urged support of educational advancement in this field.

Dr. Midgley showed a film produced by the American Cancer Society entitled "The Other City" photographed at Racine, Wis., to show that each year persons numbering as large as the population of that city are taken by death needlessly by unheeded cancer symptoms.

The meeting was called a "Lemon Party" as members brought "lemons" or unwanted items from their homes and sold them in a silent auction. The lemon theme was further carried out with beribboned plastic lemon serving as a corsage for the president, Mrs. Clarence Olson. Dolls dressed in yellow and holding lemon drop flowers adorned the tables for the potluck luncheon at which lemon drops

appeared on the menu.

Mrs. Edward Jacobs was re-elected program chairman of the club for 1958-59 at the business meeting at which it was announced that the garden section's Green Thumbers would meet at 1 p. m. Jan. 13 at the home of Mrs. Louis Biel.

More than 40 persons were present. Several of the guests came in a delegation from the Antioch Homemakers Club.

Mr. and Mrs. Emil Anderle of Lake Villa, Ill., are spending their vacation in Florida and recently visited Caribbean Gardens.

How many of these electric helpers
have you added since 1947?....asks LITTLE BILL

□ a □ b □ c □ d □ e □ f □ g □ h □ i □ j □ k □ l □ m

You're an average family if—in the postwar years you've added six new electrical appliances. Shown here are a few typical examples.

This, of course, is why you're using far more electricity nowadays than you did just a few years ago. And why life is a lot easier and more comfortable. But the surprising thing is, that of all the things you buy today, electricity has gone up less than almost anything else.

So, while your bill may be a little higher, electricity is actually doing nearly twice as much work for the money now as it did years ago.

See how little it costs to run each of these electric helpers.

a—Your refrigerator—3¢ a day. Keeps foods fresh as well as frozen.

b—An electric range—7¢ a day. (That's all it costs to cook 3 complete meals for an average family.)

c—Waste disposer—only 1¢ a week. Ends garbage smell and nuisance for good.

d—Automatic dishwasher—1½¢ a load. Washes and dries dishes sparkling clean.

e—Electric mixer—for just 2¢ it will whip up 12 cakes and frosting, too.

f—An electric clock—1¢ a week. Keeps time accurately and inexpensively.

Other appliances shown include: (g) exhaust fan—blows away heat and cooking odors for 1½¢ an hour; (h) electric coffee-maker—1½¢ for 8 cups of delicious coffee; (i) undercounter electric water heater—brings you 2½ gallons of steaming hot water for a penny; (j) ceiling fixture (150 watts)—gives good working light for 3 hours for just a penny; (k) automatic toaster—18 slices for 1¢; (l) electric fry pan—breakfast for a week (for a family of 4) for only 1¢; (m) vacuum cleaner—cleans for a whole hour for just 1¢.

Grade School Band Has Heavy Schedule For Rest of the Year

The Antioch Grade School Band Parents Association met in the school cafeteria at 7:30 p. m. on Jan. 7. Mr. Olisar announced that the district band concert would be held in the North Chicago school on March 8. The solos and ensembles would play on March 1, at the Beach Park school.

It was announced that the Antioch Grade School band would present a concert in Wauconda on Jan. 28. Feb. 17 has been set as the date of the annual P.T.A. concert, and March 4 the junior band will play for the band parents.

On March 22 the band will participate in Class D competition at North Chicago. The Antioch players hope to do well enough to be eligible to go to the state contest at Lewiston, Ill., on April 26.

The annual spring festival of the band and chorus at Antioch Grade school will be on March 28.

Immediately following the business meeting the members went to the gym to hear the concert presented by the Wauconda Grade School band under the direction of Mr. Larry Wathen. The 60-piece band played the Conroe March; Fleur-De-Lis, Minuet in Trio, Venetian Holiday, Si Trocadero, Festival of Youth, Three Little Pigs, a novelty number narrated by Linda Huckstead.

Mr. Olisar, Antioch's band director, conducted the Wauconda band in the Headway March.

Refreshments were served to all, following the concert, by Mrs. Robert Brown, mother of the month, assisted by Mrs. Warren Beattie and Mrs. A. Tegen.

On January 16, roller skating at the Twin Lakes roller rink will be a big party following the "Winter Carnival" theme. There will be favors for everyone and a good time is promised all who attend. Tickets may be purchased at the school or at the door. Everyone is invited to come and join in the fun and merriment.

1957 Wettest Year on Record in Antioch Area

Antioch had a record year in 1957, so far as precipitation was concerned, according to Roy Kufalk, co-operative observer.

The total for the year was 34.65 inches, which was 4.63 inches above the record of 32.02 in 1954.

Six inches of snow on December 31 helped materially to bring the total precipitation to 2.5 inches for the month.

The 34.65 inches for 1957 also topped the 25.99 inches recorded by Kufalk in 1953, the 27.81 in 1955, and 24.20 in 1956.

The highest temperature for December was 55 degrees on the 22nd, and the lowest one below zero on the 11th. The total snowfall was 8 inches.

So far this month the highest temperature was 33 on Monday, and the lowest 4 below on Jan. 3. Freezing weather has practically maintained throughout the month with the exception of an hour on Monday.

Snowfall up to yesterday was but a trace.

Indication how the rainfall or melted snow ranges in Antioch is shown by this three-year monthly record:

Month	1955	1956	1957
January	1.16	.29	1.76
February	1.47	1.35	1.38
March	1.56	1.44	1.96

Antioch area residents who ride the Milwaukee Road commuter trains from Fox Lake and other points, stand to get a windfall in the return of excess fares charged over an 18 month period, amounting to about \$1 a week. Read Acts 26:12-20

I have appeared unto thee for this purpose, to make thee a minister and a witness both of these things which thou hast seen, and of those things in the which I will appear unto thee. (Acts 26:16)

One morning at 1:15 we were awakened by a knocking at the door. A neighbor was ill and needed help urgently. We went to his house and found him so seriously ill that we took him to the hospital. After he had recovered from his illness, I asked him what he would have done if we had not heard the call for help. He said the call would have continued until we did hear.

This was a most favorable moment, and I said to him: "The Lord Jesus is knocking insistently at your heart right now. He wants to make you His disciple and to heal you of your sins. Why don't you listen to Him, at least once?" After pondering my words, he gladly accepted the call of Christ.

Prayer

Loving Father, in Thy great mercy Thou dost grant us opportunity to become Thy disciples. Make us truly Thy disciples. Let not family and comfort hold us back. We ask in the name of our Master and Lord. Amen.

Mayor Cunningham Home from Hospital

Mayor Murrill Cunningham was brought home to Antioch yesterday from Victory Memorial hospital, Waukegan, where he underwent surgery a week ago. He is making satisfactory recovery.

and Wayne Herbst a close second with 17 points. Art Hanke came through with 14. Coach Larry Leon just about cleaned the bench in giving his squad experience.

As was forecast, Mooseheart gave Antioch a royal battle Saturday night but the Sequoia's squeezed through a winner 53 to 52. Antioch outscored the visitors from the field, but were weak at the free throw line, making only one in eight attempts while the Mooseheart boys made six of their 12.

Mooseheart held Antioch even in the first quarter and went out ahead at the half 25 to 21. They widened the gap at a point in the third quarter, but in the final quarter Antioch's defense tightened and the offense started rolling. It was anybody's game up until the last second. Many Antioch Moose joined the Mooseheart cheering section.

Coach Leon said that his squad is playing good defensively but he is still not satisfied with the offense.

"We aren't rolling like we can," he commented. "The lack of experience accounts for most of the difficulty. It is taking longer for the team to perfect our plan of play than I expected, but it may come. The season isn't half over in the conference."

Figures in the box scores picture the play of the Sequoia. They are as follows:

Radio Fire Alarm Sets Ready in Eight Weeks

Antioch Firemen Told

Roy Laatsch, Chicago, representative of the Motorola Corp. told the Antioch Fire Department members in their meeting Tuesday evening that the monitor sets, transmitter and receiver for the new radio alarm system will be ready in seven or eight weeks.

The new call system, costing in the neighborhood of \$6,000 will permit each fireman to be summoned at home as well as by the general siren.

The transmitter will be placed at the Telephone Answering Service at 810-Lake street, and the person there answering the fire call will buzz a warning on each home radio set and then announce the location of the fire. Heretofore, the firemen either got the location at the station or by giving a certain code number were told the location by the telephone operator.

Chief Edgar Simonsen is expecting good results from the new system, because it has worked well in other villages. The transmitter will also receive, and the firemen can be in constant touch with the dispatcher through the two-way radios on the trucks. The same will be true of village police and county police cars.

LIGHTNING

We would know at ECONOMY TV on Rte. 173, 1 1/2 miles west of Antioch if a lightning storm was going on even if we didn't hear it. There are always several phone calls asking about what will happen if lightning strikes the television antenna.

Even if the set is turned off, a lightning strike will do a lot of damage to the television unless the antenna is disconnected and the plug pulled out. Having lightning arrestors of some kind could reduce the shock and damage under some conditions. And if you're watching TV during a storm, sit several feet away, just in case.

And if lightning does strike, you should have two phone numbers handy. First, the fire department. And if the trouble isn't too bad, probably our phone number ANTIOCH 1454 for replacement of the various burned out elements in the set.

NEIGHBORHOOD NEWS

Fire destroyed one large section of buildings of the North Bridge Marine Service at McHenry Tuesday with a loss of \$375,000. Twenty large cabin-cruisers and 30 smaller craft were consumed. The fire started in a loft where workmen were welding pipes.

Russell Stickels, 51, for 17 years police chief at Grayslake, was fired Tuesday by Mayor Michael Reimers on three counts, drinking while in uniform, failure to put a traffic timer into use as directed, and failure to appear for traffic duty. Stickels said the move was political.

A train wreck occurred between Cary and Crystal Lake on the North Western railroad after a train struck and killed a woman at a crossing, and then when it and two following trains stopped, a fourth crashed into the third, killing a flagman and injuring 50 persons.

Cermak Triplets at Home

Mary Ruth Cermak, one of triplets of Mr. and Mrs. Charles Cermak, Jr. is shown with her parents ready to leave St. Theresa hospital where she and her sister, Ann Marie, and brother, Joseph were born Dec. 5. The sister and brother had to remain a little longer to put on a little more weight before going to their home on Harden street in Antioch. Cermak, local real estate man, and his wife are parents of six children, three boys and three girls. The older children are Charlene, 15; Melvin, 14; and James 7.

Mr. and Mrs. T. M. Palaske are leaving today (Thursday) for Florida, where they will visit until April. The Palaskes will spend most of the time with their son, T. J. Palaske at Miami Shores, but they plan also to visit their son, George, and his family at Crandall Park, Miami, Jim Webb at Winter Park, Florida, and several other friends in the area.

Mrs. H. B. Gaston returned home Saturday from Carmi, Ill., where she and her sisters, Mrs. Elizabeth Behler of Woodstock and Mrs. Homer Alred of Sycamore were called by the critical illness of their father, Martin Erkman. Mrs. Alred remained at the bedside of Mr. Erkman, whose condition is unchanged.

Officers Serve Coffee at St. Ignatius Meeting

Newly installed officers of the Ladies Auxiliary of St. Ignatius Episcopal Church are shown as they served refreshments Sunday afternoon at the church following the installation of the 1958 vestry. They are, left to right, Mrs. Curtis Wells, president; Mrs. Howard Gaston, retiring president; Mrs. John W. Moran, first vice president; Mrs. Roderick Ames, second vice president; and Mrs. John L. Moran, secretary. Mrs. Loren Sexauer, treasurer, was absent when the picture was taken.

The accident occurred during a dense fog.

Antioch area residents who ride the Milwaukee Road commuter trains from Fox Lake and other points, stand to get a windfall in the return of excess fares charged over an 18 month-period, amounting to about \$1 a week. A supreme court decision said this money held in escrow should be returned to the ticket purchasers because the road from Walworth, Wis., to Chicago is mainly interstate commerce and the Illinois Commerce commission which had refused the railroad a fare increase had jurisdiction.

For quick results, place a want ad by calling 43 or 44.

The World's Most Widely Used
Devotional Guide

The Upper Room

© THE UPPER ROOM, NASHVILLE, TENNESSEE

Read Acts 26:12-20

I have appeared unto thee for this purpose, to make thee a minister and a witness both of these things which thou hast seen, and of those things in the which I will appear unto thee. (Acts 26:16)

One morning at 1:15 we were awakened by a knocking at the door. A neighbor was ill and needed help urgently. We went to his house and found him so seriously ill that we took him to the hospital. After he had recovered from his illness, I asked him what he would have done if we had not heard the call for help. He said the call would have continued until we did hear.

"This was a most favorable moment, and I said to him: 'The Lord Jesus is knocking insistently at your heart right now. He wants to make you His disciple and to heal you of your sins. Why don't you listen to Him, at least once?'"

After pondering my words, he gladly accepted the call of Christ.

Prayer

Loving Father, in Thy great mercy Thou dost grant us opportunity to become Thy disciples. Make us truly Thy disciples. Let not family and comfort hold us back. We ask in the name of our Master and Lord. Amen.

Antioch Shows 50% Increase in Business Listings Since 1950

The growth of business activity in Lake County over the past eight years is illustrated by the physical count of names of businesses listed in the January 1958 Reference Book of Dun & Bradstreet. This count showed a total of 3347 rated businesses in Lake County. Compared with the count of the 1950 Reference Book which showed a total of 2,832 names in Lake County, these figures represent an increase of 18.2 per cent.

The Reference Book lists commercial enterprises — manufacturers, wholesalers, retailers, and other businesses, generally those buying regularly on credit. It does not, however, include some service and professional establishments, such as real estate brokers, barber and beauty shops, stock brokers, etc. Thus figures for all businesses in Lake County would be higher than the ones quoted above.

According to G. F. Huray, Dun & Bradstreet's manager at Chicago which covers this area, over 1840 changes will be made during 1958 in the Reference Book listings of Lake County concerns including new names added, names withdrawn, changes in ownership, changes in credit ratings and in trade styles. We find that the credit listings in Lake County are at the elbow of virtually every credit man in the country when they appear in the Dun & Bradstreet Reference Book.

Using the Reference Book listings as a guide, it is interesting to note the comparative growth of the number of enterprises in the nine largest communities in Lake County.

Collection of U.S. Gold Coins on Display At State Bank of Antioch For Short Period

On display at State Bank of Antioch is an exhibit of United States Gold Coins from the Chase Manhattan Bank Museum of Money of the World, New York. It consists of the principal types of gold coins struck from 1795 to 1933, and representative coins that were privately minted in Carolina and California. Shown are the changing designs in the symbolic head of Liberty and the different interpretations of the eagle.

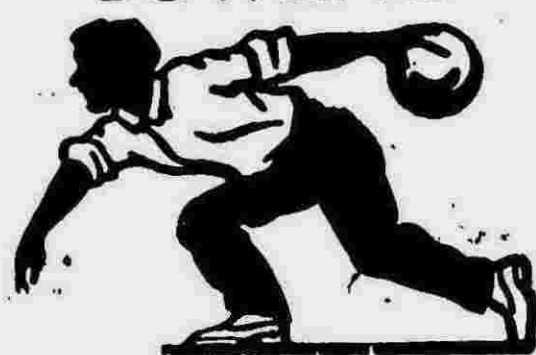

When the Coinage Act of 1792 was passed by Congress, it specified that gold coins should be struck from time to time, in the following denominations: Eagles, Half Eagles, and Quarter Eagles—each to be of the value of \$10, \$5 and \$2.50 respectively. It further stated: "that upon the said coins there shall be the following devices and legends, namely: upon one side an impression emblematic of liberty with the word 'Liberty' and year of the coinage; and upon the reverse of each gold coin there shall be the figure or representation of an eagle with the inscription, 'United States of America.'" No mention was made of the denomination. Consequently when the Eagles and Half Eagles were first coined in 1795, and the Quarter Eagle in 1796, the value did not appear on the coins. The denomination was not placed on the coin until 1807. In 1834 the weights of these three coins were reduced from that specified in 1792. The new weights of 258, 129 and 64.5 grains respectively, remained unchanged for one hundred years.

One Dollar Pieces Minted
Two additional gold coins were authorized in 1849, and these were of the \$1 and \$20 denominations. While \$1 pieces were minted in 1849 for general circulation, it was not until 1850 that the \$20 or "Double Eagle" was available to the public. The \$3 gold coin was first struck in 1854 and this piece, together with the \$1 coin, was discontinued in 1889.

Originally all the gold pieces were minted in Philadelphia, but in 1838 the government opened branch mints in Charlotte, North Carolina, and Dahlonega, Georgia, for the coining of gold only, so that metal from the mines in those areas would not be subject to the hazards of transporting it to Philadelphia. Prior to the opening of these mints some gold was privately minted in Georgia and North Carolina. The United States mints at Charlotte and Dahlonega were closed at the start of the War Between the States in 1861, and never reopened. Gold coins also have been struck at other branch mints located in San Francisco, Calif., Carson City, Nev., and Denver, Colo. All coins except those from Philadelphia, bear a mint mark or letter designating the mint.

Add Motto in 1866
The motto "In God We Trust" was added to the coins in 1866. In 1907 when new designs were adopted for the \$10 and \$20 pieces, the motto was omitted. This resulted in a great deal of public indignation, so Congress passed an act in 1908 authorizing this motto be inscribed on all gold coins that had heretofore borne this inscription. With the discovery of gold in California there was much trading of this precious metal in dust and nuggets. To facilitate business transactions, several private companies and assayers minted gold in the \$5, \$10, \$20 and \$50 denominations between 1849 and 1855. The \$50 coin which was struck in both round and octagonal shapes, is frequently referred to as a "slug" because of its size and weight. Also as there was a necessity for small change, some companies and merchants issued gold coins in denominations of 25 cents, 50 cents and \$1. These do not have the name of the issuer on them, as do the larger coins, and were minted until about 1882.

Antioch Government Benefits by \$3,401.32 During November From Half Cent Sales Tax

Antioch citizens who probably would rebel against an increase in the village corporation tax, no matter how meritorious, are financing its government without a complaint at the rate of more than \$3,000 a month through the half cent sales tax.

The state treasurer announced that under the Municipal Retailers' Occupational Tax act, less the 6 per cent cost of collection by the state, \$3,401.32 was collected in November for Antioch.

The half cent tax was permitted in Antioch, through an agreement with merchants and other business men that free offstreet parking space would be provided. This is becoming a reality as the result of the purchase of the Ackerman property on Broadway.

Contributing to this free service are merchants outside of Antioch who collect the half cent, and turn it into the state.

The village is also privileged to spend this money for other necessities, and it would be in straightened circumstances if the \$36,000 a year income were suddenly removed. Only a few years ago the income from taxes was about \$26,000.

The sales tax is also a barometer of Antioch business as well as in other villages of the state, a vast majority of whom collect it.

Antioch and Fox Lake jockey back and forth for larger amounts in this respect even though Fox Lake is a much larger village. In November Fox Lake led through the amount of \$3,566.16.

Zion's amount for the same month was \$3,869.60. Lake Villa, a much smaller village, was \$767.84.
